

ISINGIZWE ELOGE

Senior Software Engineer

isingizwe.eloge@email.com | +1 (656) 793-4395 | Reevesland, OR | linkedin.com/in/isingizwe-elope | github.com/isingizweeloge

PROFESSIONAL SUMMARY

Innovative Senior Software Engineer with 12 years of experience in full software development lifecycle. Strong background in building high-performance applications and leading technical teams.

TECHNICAL SKILLS

Languages: C#, Scala, Node.js, TypeScript, Svelte

Frameworks: FastAPI, Spring Boot, ASP.NET Core

Databases: Cassandra, Neo4j, MySQL

Cloud: DigitalOcean, Heroku

Tools: Bitbucket, Jira, Git

PROFESSIONAL EXPERIENCE

Senior Software Engineer | December 2014 - March 2015

Lee, Bennett and Pratt Tech - Lopezshire, NV

- Implemented caching strategy reducing database load by 43%
- Mentored team of 5 junior developers through code reviews and pair programming
- Reduced bug count by 61% through comprehensive testing strategy
- Led migration from monolith to microservices, improving deployment frequency by 488%
- Architected microservices system handling 3,527,805 daily requests

Software Engineer | October 2016 - September 2017

Elliott and Sons Tech - Conwaychester, ND

- Led migration from monolith to microservices, improving deployment frequency by 363%
- Reduced API response time by 31% through query optimization
- Implemented caching strategy reducing database load by 46%
- Architected microservices system handling 2,125,879 daily requests

Lead Developer | December 2022 - December 2024

Yates LLC Tech - South Janetchester, VA

- Mentored team of 5 junior developers through code reviews and pair programming
- Architected microservices system handling 173,379 daily requests
- Led migration from monolith to microservices, improving deployment frequency by 416%

Principal Software Engineer | April 2023 - October 2025

Garcia-Branch Tech - Brianstad, FL

- Led migration from monolith to microservices, improving deployment frequency by 437%
- Implemented caching strategy reducing database load by 80%
- Reduced bug count by 46% through comprehensive testing strategy

Staff Software Engineer | August 2022 - December 2024

Ryan-Campos Tech - Lake Michael, MH

- Architected microservices system handling 558,249 daily requests
- Implemented caching strategy reducing database load by 41%
- Reduced API response time by 65% through query optimization
- Mentored team of 5 junior developers through code reviews and pair programming

KEY PROJECTS

TechPeak | E-commerce Platform Development

Technologies: Rust, Microsoft SQL Server, Kotlin, Oracle, Scala

Impact: Improved user engagement by 75%

SmartHub | Payment Processing System

Technologies: Azure, PostgreSQL, C#, Python, GCP

Impact: Improved performance by 20%

AutoFlow | Microservices Architecture Migration

Technologies: Heroku, Microsoft SQL Server, Kotlin, Java, SQLite

Impact: Improved reliability by 24%

EDUCATION

Master of Science in Computer Science - Port Keithtown University (2015) | GPA: 3.71

Bachelor of Science in Software Engineering - Jasonville State University (2012) | GPA: 3.72

CERTIFICATIONS

- Certified Kubernetes Administrator (CKA)
- HashiCorp Certified: Terraform Associate
