

KWIZERA ELIVIS

Senior Software Engineer

kwizera.elivis@email.com | +1 (406) 621-2318 | Brittanystech, AS | linkedin.com/in/kwizera-elivis | github.com/kwizeraelivis

PROFESSIONAL SUMMARY

Innovative Senior Software Engineer with 12 years of experience in full software development lifecycle. Strong background in building high-performance applications and leading technical teams.

TECHNICAL SKILLS

Languages: Python, Kotlin, Rust, React, Next.js

Frameworks: Django, FastAPI, Express.js

Databases: Oracle, Couchbase, Redis

Cloud: Heroku, Azure

Tools: Bitbucket, Jenkins, GitLab

PROFESSIONAL EXPERIENCE

Senior Software Engineer | July 2014 - December 2017

Gomez, Hale and Huynh Tech - New Shannon, UT

- Led migration from monolith to microservices, improving deployment frequency by 399%
- Architected microservices system handling 549,209 daily requests
- Mentored team of 5 junior developers through code reviews and pair programming
- Implemented caching strategy reducing database load by 48%
- Reduced bug count by 52% through comprehensive testing strategy

Software Engineer | June 2016 - June 2018

Adams, Parsons and Clarke Tech - East Sean, NY

- Mentored team of 5 junior developers through code reviews and pair programming
- Reduced API response time by 57% through query optimization
- Led migration from monolith to microservices, improving deployment frequency by 405%
- Reduced bug count by 60% through comprehensive testing strategy
- Architected microservices system handling 1,377,437 daily requests

Lead Developer | March 2018 - August 2021

Burke PLC Tech - West Gary, MA

- Architected microservices system handling 473,138 daily requests
- Led migration from monolith to microservices, improving deployment frequency by 298%
- Reduced API response time by 45% through query optimization
- Reduced bug count by 51% through comprehensive testing strategy
- Mentored team of 5 junior developers through code reviews and pair programming

Principal Software Engineer | August 2023 - Present

Lawson-Irwin Tech - Montoyastad, NE

- Implemented caching strategy reducing database load by 80%
- Reduced API response time by 41% through query optimization
- Led migration from monolith to microservices, improving deployment frequency by 401%
- Mentored team of 5 junior developers through code reviews and pair programming

Staff Software Engineer | October 2022 - June 2023

Wright Inc Tech - Kingstad, TX

- Implemented caching strategy reducing database load by 64%
- Led migration from monolith to microservices, improving deployment frequency by 228%
- Architected microservices system handling 4,822,481 daily requests
- Reduced API response time by 48% through query optimization

KEY PROJECTS

AutoFlow | Real-time Data Processing System

Technologies: Kotlin, MySQL, PostgreSQL, Scala, Azure

Impact: Improved performance by 49%

AIHub | Cloud-Native Application Development

Technologies: C#, MySQL, AWS, Azure, Rust

Impact: Improved efficiency by 39%

CloudWave | Distributed Cache Implementation

Technologies: Node.js, C#, Rust, MySQL, DigitalOcean

Impact: Improved efficiency by 39%

EDUCATION

Master of Science in Computer Science - Anderson University (2011) | GPA: 3.67

Bachelor of Science in Software Engineering - Martin Luther State University (2009) | GPA: 3.33

CERTIFICATIONS

- AWS DevOps Engineer Professional
- HashiCorp Certified: Terraform Associate
